

Virtual Internship In UI/UX

A REPORT ON EVALUATION OF INTERNSHIP

**Submitted in Partial Fulfillment of the Requirement for the Award of the Degree
Of BACHELOR OF TECHNOLOGY IN CSE DATA SCIENCE DEPARTMENT**

SUBMITTED TO

Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal (M.P.)

SUBMITTED BY

VIDHI AGNIHOTRI (0176CD221152)

Lakshmi Narain College of Technology Excellence, Bhopal (M.P.), India

UNDER THE SUPERVISION OF

SAMEEKSHA RAHANGDALE

Professor, Department Computer Science & Engineering

Lakshmi Narain College of Technology Excellence, Bhopal (M.P.), India

Department of CSE Data Science

Lakshmi Narain College of Technology Excellence, Bhopal (M.P.)

Session: 2023-24

Lakshmi Narain College of Technology Excellence, Bhopal

Department of Computer Science & Engineering, Data SCIENCE

CANDIDATE'S DECLARATION

I, **VIDHI AGNIHOTRI**, Student of **Bachelor of Technology, CSE Data Science, Lakshmi Narain College of Technology Excellence, Bhopal** . I hereby declare that the work presented in the training entitled “**Virtual Internship In UI/UX**” is outcome of my own bona fide work, which is correct to the best of my knowledge and this work has been carried out taking care of Engineering Ethics.

I have not submitted the matter presented in this dissertation anywhere for the award of any other Degree.

SUPERVISOR'S DECLARATION

The training entitled “**Virtual Internship In UI/UX**” being submitted by **Vidhi Agnihotri (Enrollment no. : 0176CD221152)** has been examined by us and is hereby approved for the award of degree “**Bachelor of Technology, Computer Science & Engineering Data Science**”, for which it has been submitted. It is understood that by this approval the undersigned do not necessarily endorse or approve any statement made, opinion expressed or conclusion drawn therein, but approve the dissertation only for the purpose for which it has been submitted.

VIDHI AGNIHOTRI

Enrollment no.: 0176CD221152

Lakshmi Narain College of Technology Excellence, Bhopal
Department of Computer Science & Engineering Data Science

CERTIFICATE

This is to certify the training entitled “**Virtual Internship in UI/UX**” under the company **Schoollog** is the bonafide research work carried out independently by Vidhi Agnihotri, Student of Bachelor of Technology Department of Computer Science & Engineering Data Science from Rajiv Gandhi Prodyogiki Vishwavidyalya, Bhopal.

In the partial fulfillment of requirement for the award of the degree of Bachelor of Technology and the dissertation has not formed previously the basis for the award of any degree, diploma, associate, fellowship or any other similar title according to our knowledge.

Department of Computer Science & Engineering

ACKNOWLEDGEMENT

At the outset, we would like to thank the Almighty who made all the things possible, writing this training report would not have been possible without the support of several people whom we need to wholeheartedly thank. A special thank of ours goes to "Dr. Neetesh Kumar Gupta" Professor and Head, Department of Computer Science and Engineering Data Science, LNCTE, Bhopal who helped us in completing the research and exchanged her interesting ideas thoughts and made this research easy accurate.

We are equally grateful to Dr. A.K Saxena, principal, LNCTE for providing all the necessary resources to carry out this project work. We would like to thank all staff members of CSE, L.N.C.T.E. and friends, for their moral and psychological support.

We will be failing in our duty if we don't acknowledge the authors whose work has been consulted by us during the project work.

4. Conclusion

4.1 Experienced the work as an intern

4.2 Looking Ahead: More opportunities from Schoollog

1. Introduction

1.1 What is UI/UX?

UI stands for User Interface and UX stands for User Experience. UI deals with the interaction between users and computer systems, software and applications. It basically defines how any website looks like. UX defines the experience a user would go through when interacting with a company, its services and its products.

1.2 Figma

Figma Design is for people to create, share, and test designs for websites, mobile apps and other digital products and experiences. It is a popular tool for designers, product managers and developers.

We can easily create wireframes and designs of different applications and websites.

2. Internship Objectives

2.1 Learning Tools in Figma

There are many tools in Figma to make a better website and mobile applications.

For eg. the color styles, the font, shapes. Figma provides a color palette by which we can choose our own color for the design.

Also there are different types of shapes by which we can create any design or logo.

2.2 Animation in Figma

In this internship, I learned animation using Figma Tools.

I have created some logos using animation. Creating the front page of application using Figma tools was a great experience.

2.3 Application Designing

During this internship, I have created some application designs like news app, canteen app for the company. Also I gave some logo ideas for the future products.

3. Certification

3.1 Recognition of Successful Completion

Recognition of participants' successful completion of the UI/UX internship in Schoollog came in the form of a Certification. This certification was not just a token acknowledgment but a tangible testament to the skills and knowledge acquired during the internship. It served as a badge of honor, symbolizing the participant's readiness to contribute to the field of UI/UX Design.

3.2 Value of the UI/UX Schoollog Internship

Schoollog is a cloud based AI Powered online software for schools that manages academics and operations through it's School Management System. It is a growing startup. Hence this certificate holds so much value.

3.3 Professional Development and Career Opportunities

Beyond its value in the job market, the certification also contributed to the professional development of participants. It provided a sense of accomplishment and validation for the time and effort invested in mastering the tools of Figma and concept of UI/UX. The certification became a cornerstone in participants' professional portfolios, opening doors to career opportunities and serving as a catalyst for continuous learning and advancement in the field.

4. Conclusion

4.1 Experienced the work as an Intern

Working as an intern under the Startup Schoollog for 3 weeks gave me an amazing working experience. Since it was remote internship, therefore I gained knowledge about work from home.

4.2 Looking Ahead: More Opportunities from Schoollog

I am looking for an offline internship from Schoollog, because Schoollog supported me very well during my internship.
